

Protocol Dronium One Battery Replacement

Replace or recharge your dying battery to bring power back to your drone.

Written By: Ameth Ramos

INTRODUCTION

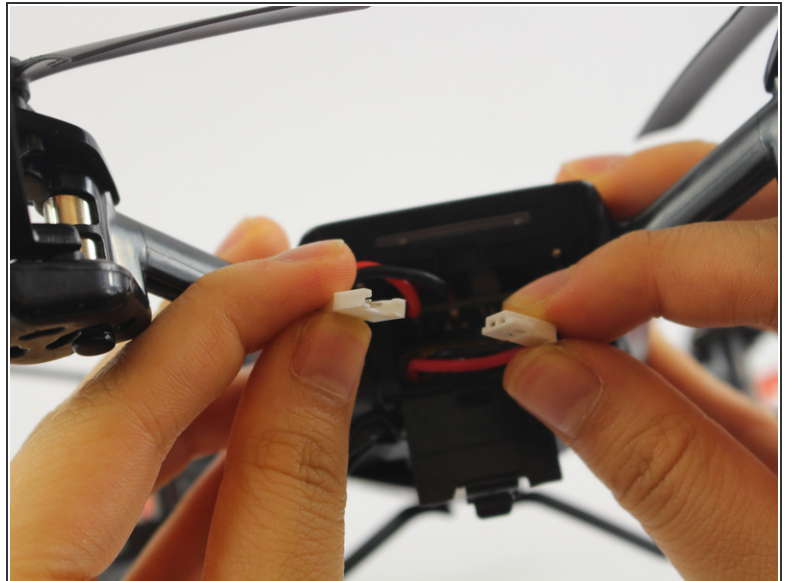

Your battery could be low or no longer holding its charge. This guide will walk you through the simple steps to access and replace your drone battery.

Step 1 — Battery

- Pull down and out on the battery cover in the back of the drone.

Step 2

- Expose the cable connection and pull apart the cable connection.

Step 3

- Carefully slide out the drone battery.

To reassemble your device, follow these instructions in reverse order.
